About the College:

Age cannot wither St. Joseph's College, nor custom stale its infinite variety. Modern in its tradition, autonomous in its function, ours is the only college in Tamilnadu with the Special Heritage Status conferred by UGC. What was founded by the fathers of Society of Jesus in 1844 has now become a UGC recognised 174-year-old 'College with Potential for Excellence' affiliated to Bharathidasan University, Tiruchirappalli, Tamilnadu. Accredited with A Grade (3rd Cycle) by NAAC, our college offers altogether 98 aided and unaided programmes from UG to Ph.D. taught and supervised by 20 departments. Striving to be an agent of social change, the college trains young men and women of quality to be leaders in all walks of life so that they may serve the people of the nation in truth, justice, and love. The college has produced many writers, teachers, thinkers, activists, scientists, government officials, actors, directors, and politicians who have shown others what it is to be a Josephite. One such an illustrious Josephite was Dr A.P.J. Abdul Kalam, the former President of India.

About the Department:

The Research Department of English offers holistic education by teaching and training students in using English effectively, making them employable, and leading them to their total formation within the human community in accordance with the Jesuit vision of higher education. The department has two shifts (aided and unaided) with 38 staff teaching around 710 B.A., and M.A. students altogether. There are nine approved guides supervising 43 M.Phil. and 56 Ph.D. scholars. Our department runs two research journals Hermes (ISSN 09753516), and Pedagogue (ISSN 22777512). Our department's Bibliophile Club, Communication Club, Bards' Club, and Lit Quest speak volumes of the efforts taken by our staff to mould the overall personality of students. Besides, the department regularly conducts conferences, seminars, workshops, special lectures, orientation programmes for English staff and scholars, bridge and remedial courses, certificate courses in English and French, and coaching classes for NET/SET.

About the Programme:

The unprecedented development of technology has certainly influenced English language education. The web 2.0 has revolutionized pedagogy, roles of learners, teachers, parents, and policy makers, teaching tools, learning materials, teaching and learning strategies, etc. This dramatic change has thus disrupted the conventional system of teaching and learning English. However, English language teachers are not yet fully prepared to meet the challenges in preparing the Generation Z learners for their future careers that have not yet been created. The Generation Z, born between 1995 and 2012, is growing up in a world that is entirely different from what their parents and teachers grew up in. They are constantly on smart devices. They text instead of calling; they tweet; they instagram; they whatsapp; and they even design their own apps. On the contrary, their teachers lecture, use only blackboards, and expect learners to write elaborately in exams. Therefore, this faculty development workshop attempts to bridge this wide gap by familiarizing the participating teachers with the web tools that help them

- ❑ **to develop course sites** with multimedia resources,
- ❑ **to set up discussion forums** for engaging learners in creating new knowledge, and
- ❑ **to conduct formative assessment** to help learners check their learning.

Participants will be trained in the following web tools:

- ❑ Kahoot
- ❑ Google Sites
- ❑ Google Drive
- ❑ Google Classroom
- ❑ Google Sheets
- ❑ Google Docs
- ❑ Plickers
- ❑ Nearpod
- ❑ Google Slides
- ❑ Google Forms
- ❑ Whatsapp Groups
- ❑ QR Codes

Workshop Facilitator:

Dr M. S. Xavier Pradheep Singh
Assistant Professor, Department of English, St. Joseph's College, Tiruchirappalli.

Who can participate?

- ❑ English language teachers (both Arts and Science and Engineering colleges)
- ❑ Teacher educators from B.Ed colleges
- ❑ Full time Ph.D. research scholars (English)

Benefits:

- ❑ Hands-on training in using technology for learning and teaching
- ❑ Take-home ideas for using technology
- ❑ Training manuals on web 2.0 tools
- ❑ Network of teachers interested in educational technology

Note:

A week before the workshop
- ❑ You will fill out an online survey questionnaire.

During the workshop
- ❑ You will use web 2.0 tools in computers and mobile devices simultaneously.
- ❑ You will be given a desktop computer with internet connection. You can also bring also your laptop.
- ❑ You need to bring your smart phone with active internet connection.

A week after the workshop
- ❑ You will be added to a network of teachers using technology for future professional development.
